

DSSA provide an extensive range of standard keypads that allows integrators and system designers to build more optimized solutions. We also have fully customised keypads for production volumes that allow for both customer's design and functionality requirements.

The POWERKEY 1000 offers a compact and sleek design while giving OEM's the opportunity to custom laser etch their design and logo onto the keypad at a minimal cost.

With waterproof, soft touch rubber buttons, over 3 million operations and featuring "Plug and Play" installation the POWERKEY 1000 is the versatile choice for all your needs.
